

## HOME-ARP Project and Planning Grants Awarded Projects

Virginia has provided \$21.5 million in developer subsidies for 10 projects across nine localities to support the construction of new affordable rental housing, including units reserved for households experiencing or at risk of homelessness.

The Virginia Department of Housing and Community Development administers the onetime funding through the HOME American Rescue Plan (HOME-ARP) Developer Subsidy Program. The program fills gaps in permanent financing to finalize the capital needed for affordable rental developments. Funding is awarded competitively to housing developers, nonprofits, and state-certified Community Housing Development Organizations.

Virginia's HOME-ARP program received its funding through the U.S. Department of Housing and Urban Development's HOME Investment Partnerships Program as part of the 2021 American Rescue Plan Act.

Funding will support projects in the cities of Alexandria, Charlottesville, Harrisonburg, Lynchburg, Radford, Richmond, and Virginia Beach, as well as Fairfax and Orange counties. The table below lists the organizations that will receive the awards.
